Limmo Lemonade Presentation

Hello !

Hello to those who are curious about our story as the limmo family. Limmo's journey, which started in a small business, actually came to this day with the love of lemon and lemonade. We set out on this road with the dream of delivering this flavor, which we produce with our own hands and in accordance with the real lemonade making method, to the whole world. If you treat a lemon gently, it will offer you its unique aroma instead of the bitterness in its peel. The recipe we actually apply to make real and unique limmo lemonade is to bring limonene, which is in the structure of the lemon, out of the peel and meet with the juice of the lemon. Here is the whole secret.

No Additive No Colorant No Preservatives

But Vitamin C ...

While producing Limmo Lemonade, using completely natural methods without adding any preservatives, flavorings, additives or colorants. -40°C we produce by freezing without spoiling the aroma structure. You, our valuable consumers, keep us frozen. -18 °C you can find it in the aisles.

In the production method of Limmo lemonade, it is naturally 3 times more than a lemon you will squeeze at home. C we get the vitamin. C vitamins are naturally found in Limmo lemonade. C vitamin strengthens our immune system and increases our resistance against diseases. That's why we say to consume Limmo every moment of the day.

The First and Only Award Winning Lemonade in the World

Limmo lemonade was evaluated completely objectively by 200 Michelin starred chefs and sommeliers from different countries of the world at the international taste and quality institute, headquartered in brussels, and received the highest score for 5 years, moreover, as the first product to get a full score of 100 out of 100 from the odor test. , has the distinction of being the world's first and only lemonade that received the "3 star superior taste quality award" and the "Crystal Award 2019" as an indicator of the sustainability of quality and taste.
